Puig
Hi-Tech Parts

Puig
Hi-Tech Parts

OUR PASSION FROM WITHIN.

2020 will be remembered as an unusual year as a result of COVID-19. The dramatic health situation that our country has experienced made our company available to the health authorities from the first moment and we allocated a part of our production to the manufacture of protection material in PMMA, which is the material we use to manufacture our windshields and screens, selflessly. We hope that the elements manufactured by Puig have been useful in saving human lives.

Although the season of the **MOTO GP** and **SUPERBIKES** championships has delayed its start, during the lockdown we have not stopped technically collaborating with the HRC (MOTO GP) and KRT (SUPERBIKES) teams, testing new materials, shapes and designs that have already being applied to the products in this new catalog. From here, we support both teams with all of our technology to give us a new world crown to add to our list of honors in 2020.

In this new catalog we have been forced, due to volume, reliability and updating issues to restrict the number of application tables, and to support their consultation through our website.

Here are some highlights for the 2021 news that you can find in the catalog:

- Extension of the range of **Downforce Spoilers** for Naked and Hyper sport motorcycles (pages 113-115).
- **Handlebar area:** Shark model universal windshield (page 124), brake-clutch lever protector (page 183), scooters levers (page 191), rearview mirrors mod. Look (page 229) and GT.1 (page 247), Original rearview covers (page 257), Mobile phone supports (page 279).
- **Middle front zone:** Tower sequential turn signal (page 347) and extension of our offer of wiring extension for turn signals (page 366) and license plate lights (page 380).
- **Chassis-Engine area:** Vintage 2.0 model frame slider (page 443), Carter oil cap (page 421).
- **Wheels area:** Single-sided rear fenders (page 483).
- **Merchandising:** New displays of 3.0 levers and visors (page 532), clothing and accessories.

One more year we appreciate the trust you place in the brand, which encourages us to continue pushing to keep this catalog up to date, year after year and hoping we win the battle against COVID-19 shortly, together. Stay healthy.

Puig Hi-Tech Parts

COVID-19
CORONAVIRUS

Puig Hi-Tech Parts

The CORONAVIRUS has changed our day to day, the way we relate, buy and share workspace. The new normality brings with it a series of norms of social distancing and hygiene to avoid the spread and a possible regrowth.
Business will not be the same for now. All of them must ensure the safety of their clients and workers.
Extra work that Puig aims to make easier with our range of Covid-19 products.

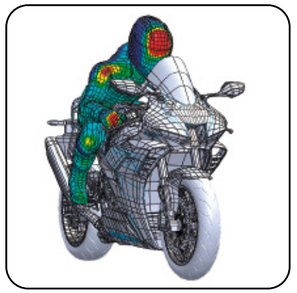
HI-TECH PARTS | TECHNICAL SECTION

TÜV ABE 38182

// SCREEN TESTED IN THE VIRTUAL WIND TUNNEL

Improved aerodynamics and wind protection on average 12,7% compared with OEM screen.

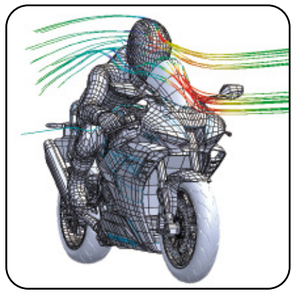


- Lower pressure
- Max. pressure

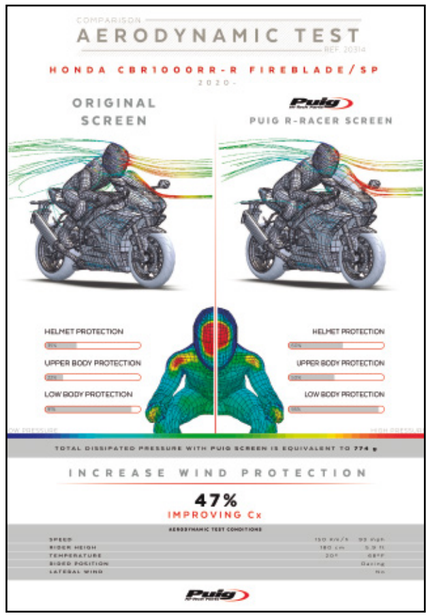
Wind pressure with a PUIG screen.

- Lower pressure
- Max. pressure

Wind pressure with a OEM screen.

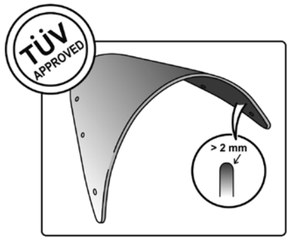


Improved aerodynamics and wind protection on average +12,7%



Aerodynamic test delivered with almost all our screens.
Check our website.

3 mm. high impact acrylic.
Resistent - Durable.
Precise fit.



Rounded edge screen profile in >2 mm. Complying with the German TÜV regulations.

FOR SPECIFIC MODELS **SEE PAGE 34.**

WINDSCREEN MODELS

HI-TECH PARTS | TYPE OF WINDSCREEN:

NEW!

RACING

Doble height Windscren, it drives the air away from your helmet, for supersport bikes.

TOURING

Windscreen taller than the original to provide more protection to the rider.

NEW GENERATION

Windscreen with adaptor specifically designed for motorcycles that do not have a screen, especially for Naked models.

STANDARD

Windscreen wihtout supports, form and height are the same as the original windscreen.

Z-RACING

Windscreen with edges in Z form that drives the air away from the helmet. Slightly taller than the original. Wide range of colors.

TOURING PLUS

Windscreen larger than the Puig Touring model, for certain models of motorcycle tourer for maximum aerodynamic protection.

TOURING WITH VISOR "CLIP ON"

Higher windscreen than the original to which is assigned a multi-adjustable visor that is fixed with a system called "clip-on" to divert the air from the rider and provide maximum comfort when driving.

SPORT

Windscreen without supports, lower than the original windscreen.

R-RACER

Windscreen that comes from competition, without edges. Significantly taller than the original one. Available in smoked colors.

TOURING WITH VISOR

Higher windscreen than the original that incorporates a multi-adjustable screwed visor to divert air from the rider and provide comfort.

ADJUSTABLE

Windscreen that can be adjusted in height, with or without tools and adjust it to the most suitable position for each rider / situation.

M.E.M.

HI-TECH PARTS | TECHNICAL SECTION

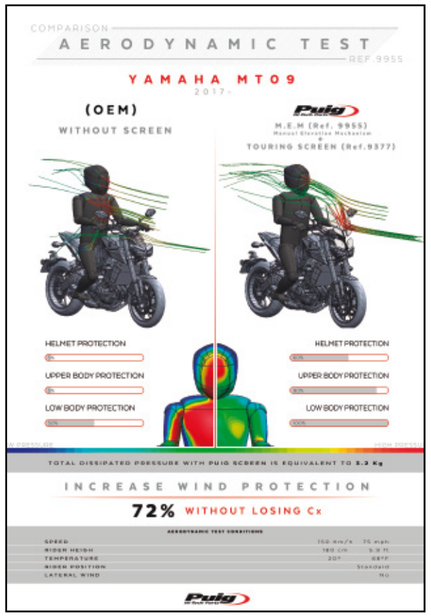
NEW!

// M.E.M.

(Manual Regulable System)

Compact mechanism that allows you to modify the position of the screen of your motorcycle without tools so you can adapt to the different situations that the route demands, raising it and increasing the aerodynamic protection on fast roads or adverse weather conditions, or reducing it in city or offroad driving for a wide field of view without interference, or for a more sport look.

You will be able to activate the mechanism and place the screen in the position you want with a quick and easy twist on the fixings, and fix it again with just your hands, without the need for tools. The mechanism is used for your OEM screen or for Puig screens for your motorcycle.



Aerodynamic tests supplied along with most of our windscreens.

HI-TECH PARTS | TECHNICAL SECTION

// E.R.S.
(Electronic Regulable System)

Electronic mechanism, easy assembly, which allows the movement of the screen easily by operating a commutator even piloting the motorcycle.

It has a height of 150 mm. To regulate at will of pilot, according to his height and the meteorological conditions.

Improves pilot comfort.

It can be mounted with both the Puig dome and the original one.

WINDSHIELDS FOR MAXISCOOTERS

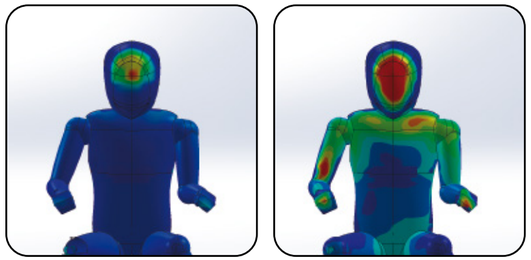
HI-TECH PARTS | TECHNICAL SECTION

// SCREEN TESTED IN THE VIRTUAL WIND TUNNEL

The V-Tech design has been developed through our Virutal Wind Tunnel to improve and OEM aerodynamic penetration.
Its angulated shapes on its central and side sections eases the wind canalitzation redirecting it to both sides of the rider, minimizing turbulances and keeping the radical look of the pieces.

PUIG **OEM**

Improved aerodynamics and wind protection on average +24%.
REF.**1666**



PUIG **OEM**

Wind pressure comparation between V-Tech Line Puig and OEM.

CHECK COMPARATIVE STUDIES FOR ALL OUR V-TECH LINE SCREENS IN **OUR WEBSITE.**

WINDSHIELD SPECIFIC FOR NON-ROUND HEADLIGHTS

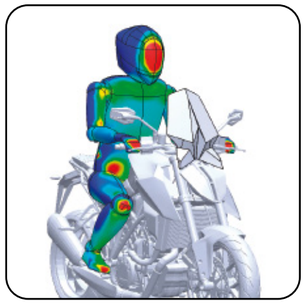
HI-TECH PARTS | TECHNICAL SECTION

TÜV ABE 38188

// VIRTUAL WIND TUNNEL TESTED

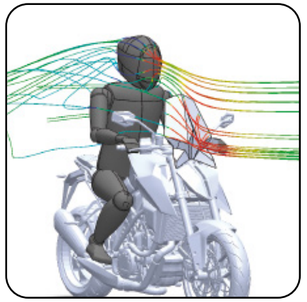
- Lower pressure
- Max. pressure

Wind pressure without Windshield Naked New Generation Puig.



- Lower pressure
- Max. pressure

Wind pressure with Windshield Naked New Generation Puig.



Improve aerodynamics and windprotection.

At PUIG, depending on the model, we apply a silkscreen or not on our windscreens to hide unattractive parts of the motorcycle.

F900R
Serigraphed windscreen brilliant in the interior

GSX-S750
Windscreen without silkprinted

Z900
Silkprinted windscreen in black matt on the outside

The shape of the windshield may vary acording to the motorcycle model. Please visit our website.

DOWNFORCE SPOILERS SPORT

HI-TECH PARTS | TECHNICAL SECTION

ANTI-WHEELIE

ANTI SHIMMIE
More stability on straights.

DOWNFORCE
More composure when braking.

STABILITY
More stability when changing direction.

REF. 3162V

Aerodynamic test supplied along most of our spoilers.

They consist of:

· Set of spoilers made of 4mm thick CN High-Impact acrylic. Always in black.

· Set of deflectors available in colors.

Puig's Downforce Sport spoilers have been developed thanks to the experience and tests carried out by the Kawasaki Racing team on the WorldSBK championship circuits. Get the ultimate racing touch and improve the cornering of your motorcycle with these Downforce Sport spoilers.

NEW!

ANTI-WHEELIE

ANTI SHIMMIE

More stability on straights.

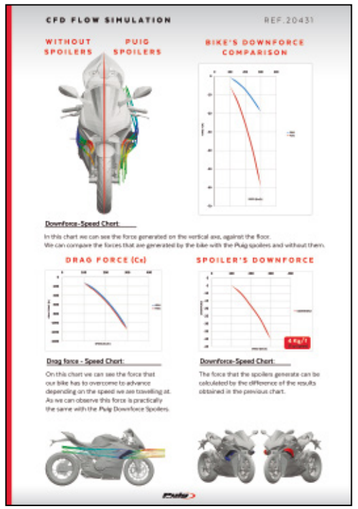
DOWNFORCE

More composure when braking.

STABILITY

More stability when changing direction.

REF. 20431F



Aerodynamic test supplied along most of our spoilers.

They are made up of two elementss:

- Supports injected in flexible black plastic that adapt perfectly to the fairing of your motorcycle by means of a 3M dual lock adhesive, strong, resistant and durable, but that can be removed and does not damage or require holes in your fairing.
- Spoiler in closed form, which is made of 4 mm. acrylic material. To choose a color, following safety regulations, with rounded edges with a radius >2 mm., a highly rigid and light material that is perfect for receiving aerodynamic pressure and directly translating it into downforce.

This product, extracted from the experience of the brand in the Moto GP championship, manages to provide greater air pressure in the front end in high-speed sections and improve cornering.

DOWNFORCE SPOILERS NAKED

HI-TECH PARTS | TECHNICAL SECTION

NEW!

ANTI-WHEELIE

ANTI SHIMMIE

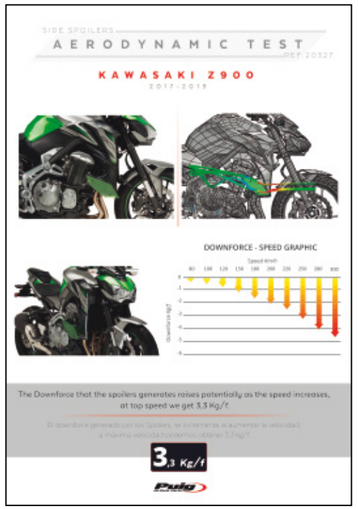
More stability on straights.

DOWNFORCE

More composure when braking.

STABILITY

More stability when changing direction.

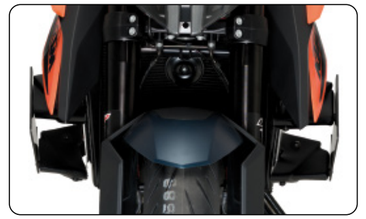


Aerodynamic test supplied along most of our spoilers.

REF. 20380R

Naked spoilers are made up of:

- Spoiler-covers in matt black ABS material, which are easily installed on your motorcycle by means of metal supports with an anti-corrosion finish in black, light and resistant.
- Deflectors, which are made of 4 mm. thick CN acrylic material and a color to choose from (colors defined according to models). These deflectors have a rounded Ø 4 mm. edge for greater rider safety.



The NAKED spoilers are an adaptation of the most cutting-edge innovations in competition in the field of aerodynamics applied to your motorcycle, providing it with the best performance and an incomparable sport style. Designed and manufactured in Barcelona with the most advanced technologies to achieve a technical product with the best aesthetics and finishes

LEVERS 3.0

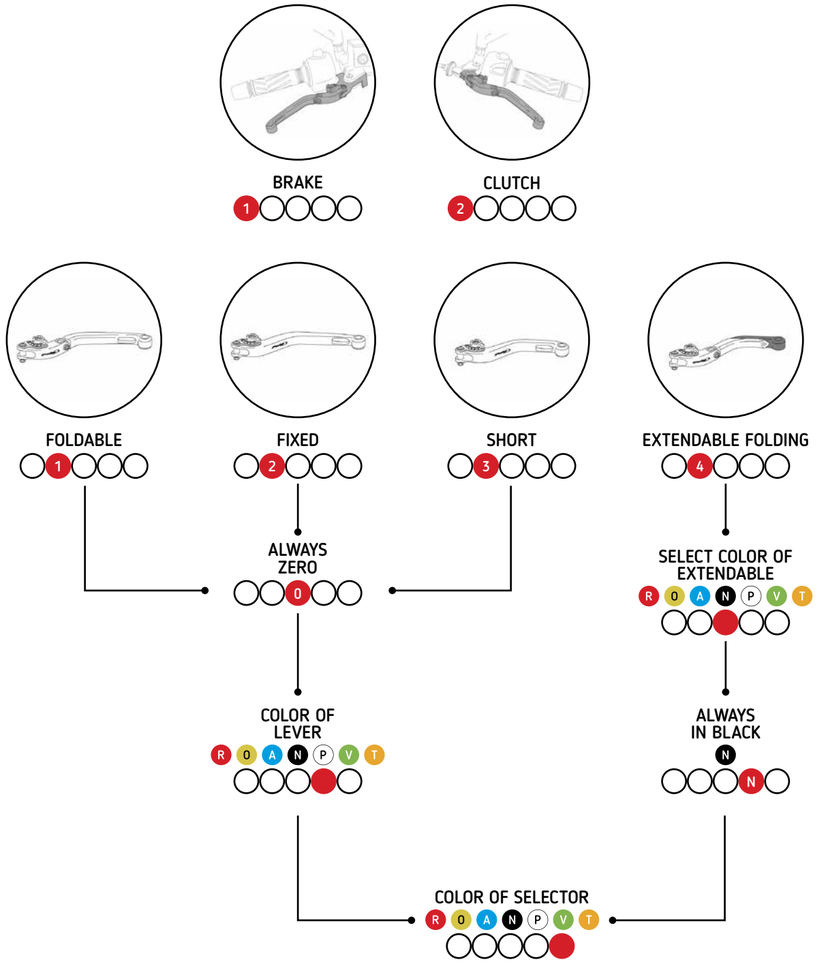
HI-TECH PARTS

// 5 STEPS TO FIND THE PART# FOR YOUR LEVERS 3.0

1. SELECT TYPE OF LEVER
2. SELECT MODEL OF LEVER 3.0
3. SELECT COLOR OF EXTENDABLE
4. SELECT COLOR OF LEVER
5. SELECT COLOR OF SELECTOR



// EXAMPLES ON HOW TO OBTAIN THE PART# FOR THE 3.0 LEVERS

REF. **240NO**

- 2 CLUTCH
- 4 EXTENDABLE FOLDING
- 0 COLOR OF EXTENDABLE
- N ALWAYS IN BLACK
- O COLOR OF SELECTOR

REF. **120AN**

- 1 BRAKE
- 2 FIJA
- 0 ALWAYS ZERO
- A COLOR OF LEVER
- N COLOR OF SELECTOR

REF. **210NT**

- 2 CLUTCH
- 1 EXTENDABLE
- 0 ALWAYS ZERO
- N COLOR OF LEVER
- T COLOR OF SELECTOR

REF. **230NA**

- 2 BRAKE
- 3 SHORT
- 0 ALWAYS ZERO
- N COLOR OF LEVER
- A COLOR OF SELECTOR

HI-TECH PARTS | TECHNICAL SECTION

FOLDS OUTWARD

Adaptor designed with spring which allows the lever to swing forward to avoid the lever to twist or break.

DESIGN

Exclusive design: Clutch lever length of lever for 4 fingers. Brake lever lenght for 3 fingers.

REGULATION

The adjustable system allows to adjust the position for rider's needs.

MOTORCYCLE HANDGUARDS

HI-TECH PARTS | TECHNICAL SECTION

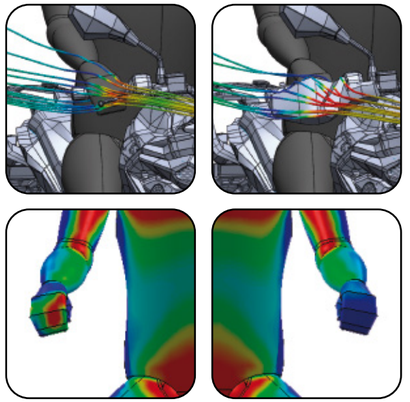
OEM PUIG



Puig offers a wide range of handguards for those motorcycles that do not have them. Manufactured in a matt black plastic material. They are light, durable and matching your motorcycle lines.

Designed with the best aerodynamic software to protect your hands and arms from the rain, air and possible small impacts from small rocks or insects.

Available in two models according to the protection or style you prefer, sport or touring.

FOR SPECIFIC MODELS **SEE PAGE 266.**

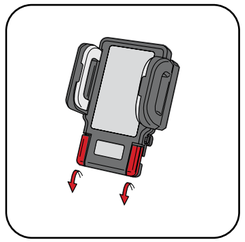
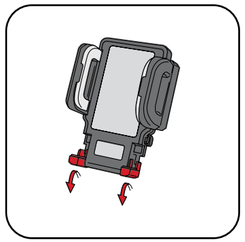
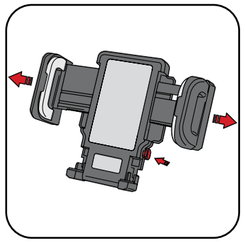
MOBILE PHONE SUPPORT

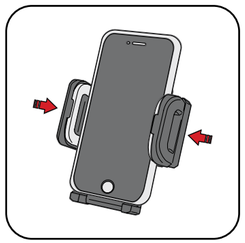
HI-TECH PARTS | TECHNICAL SECTION

NEW!









REF. 3836N

// HORIZONTAL SMARTPHONE PHONE HOLDER

Thanks to the Puig phone holder you can use your smartphone as a browser without suffering for its integrity and security. In addition, in our catalog you will find a line of accessories related to your mobile phone and its protection during journeys of all kinds and with different weather scenarios.

The support will allow you to integrate your phone comfortably and without affecting the final visibility of the road. The locking mechanism adapts to the inches of today's phones. The padded area on the sides and the back, where it rests, improves its grip, and prevents vibration that could affect its operating system.

You can mount the phone holder on the base of the mirror, the mirror rod, on the handlebar and on the seat post of the motorcycle where it will be more immobilized against possible impacts or potholes on the road.

REF. 3756N

REF. 3756P

// SUPPORT TO CENTRAL HOLE YOKE

Universal support for Sport motorcycles. It is fixed in the center of the yoke axle. Allows you to adjust the inclination and lateral movement. It consists of a machined aluminum body in silver or black, with a bar of the same color and a plastic support with an adjustable hemisphere that allows a quick adjustment without tools.

It can be mounted on any motorcycle that has a hole in the yoke axle (or a plug) with dimensions between Ø13 and Ø18, where the stamping pin will pass. Easy to assemble. **Compatible with Puig quick fix covers ref.3530N and 3531N. Check the compatibility of the motorcycle at Puig Motoplastic website.**

Available for a wide range of models, consult adjustability to the motorcycle model in the web.

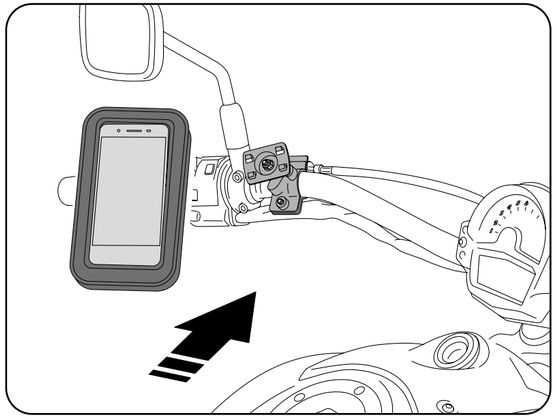
HI-TECH PARTS | TECHNICAL SECTION

// HANDLEBAR



This element allows you to directly adjust the support for the Smartphone to the handlebar of the motorcycle. It is made out of two halfs that adjust to each other with the handlebar in between, while they adjusted through a thumbscrew. We also offer different thickness rubber spacers, so that it ends up perfectly adjusted to the motorcycle.

This part is good for any handlebar that has a diameter of Ø20 until Ø25 mm and just like any of our supports, it is compatible with our cel phone covers.

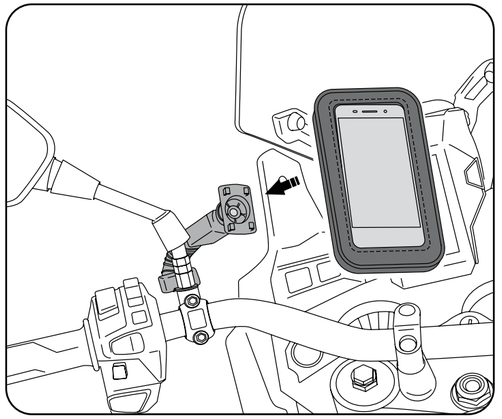
MOBILE SUPPORTS

// REARVIEW MIRROR BASE



Support for the rearview mirror base, it is an universal support with complete mobility, 360º and also allows 100% adjustability to guarantee the best view during the ride, so the rider doesn't loose focus of the road.

The support is made of a metal base and a semi-rigid arm that guarantees a perfect attachment to the base of the rearview mirror. This support is good for all those motorcycle models that carry the rearview mirrors over the handlebars and are also compatible with Puig's covers.

REF. 3532N

MODEL	REF.	N

AUXILIARY LIGHTS

HI-TECH PARTS | TECHNICAL SECTION

Universal fog lights and aluminium case painted black.

LED technology with low power consumption, avoiding putting the battery in danger due to excessive consumption.

Supplied with instructions on our engine guards. Fit engine guards between 23 and 25 mm diameter.

Equipped with a fuse and cables to connect directly to your battery and with a water proof switch to be installed on your handlebars.

ALUMINIUM housing designed to promote heat dissipation.

Optional metallic grill protections for offroad use.

Sells separately (**Part#** 9785N)

TECHNICAL CHARACTERISTICS:

Low consumption: 40w (20w per light)

Voltage: DC 12-24v

Lumens: 4000L M(2000L M/light)

Material: PC Lenses / ALUMINIUM housing

MOUNTING: To mount the auxiliary lights on the Puig engine guards use only one of the two spacers that carries the support and the allen screw M6 x 50.

// TECHNICAL INFO TURN SIGNALS CONNECTIONS:

Most of the bikes use bi-metallic relays. Its frequency (which is the one that sets the pace of the turn signals) depend on the amperage circulating through the circuit. When replacing the turn signals from OEM to aftermarket ones which carry a difference power, consequently they vary the amperage circulation through the circuit that causes a change on the frequency of the turn signals rhythm. If otherwise, the motorcycle uses electronic relay (which frequency works independently from the amperage circulating through the circuit) the change of turn signals from OEM to aftermarket, should not affect the frequency of the turn signals rhythm.

· **Note:** In case of doubt of what type of relay the motorcycle uses, we recommend to check the turn signal rhythm after switching form OEM to aftermarket.

If the OEM turn signals are replaced by aftermarket ones that use incandescent bulbs, we need to check they use the same power. In case it is different, we need to replace the turn signals bulbs for others that use the same power as OEM ones. On our catalog, we have available bulbs of different power.

If the OEM turn signals are replaced by LED ones (of much less power than incandescent bulbs), we have two options to balance the frequency of rhythm:

1. Incorporate a parallel relay in the right circuit and the other on the left curcuit. If we replace four turn signals, we need to use a resistance Part# 42980. If otherwise, only two turn signals are replaced (one on each side), we need to use a resistance Part# 42980. The resistances are supplied with a scheme for a parallel connection.

· **Note:** On most of the bikes, the warning function of the bike is disabled if the resistance is used.

2. Identify the intermittent relay of the motorcycle (location and number of pins) and replace it for its corresponding from the list supplied on most of the bikes, the warning functions work correctly when the relay is replaced.

· **Note:** we can find some motorcycles in the market that do not have an intermittent relay, obviously in this case it cannot be replaced. Moreover, if on the blinking function intervenes more than one relay, it is possible that replacing only one relay does not solve the problem.

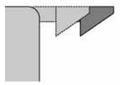
SUPPORT FOR ORIGINAL TURN SIGNAL

FUNCTION

They allow the assembly of the original turn signals in the PUIG license plate holders.

MATERIAL

Made of steel.
Finished with epoxi black paint.



OPTICS

Hides the empty section left by the original turn signal once replaced.

REF. 9320N

N
Black

FOR SPECIFIC MODELS **SEE PAGE 384.**

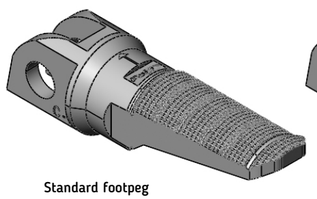
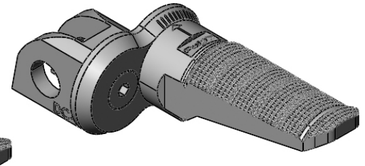
FOOTPEGS HARDWARE

HI-TECH PARTS | TYPE OF FOOTPEGS HARDWARE:

At Puig we have developed a new range of footpeg hardware that allows the rider to adjust the position of the foot to their liking and at the same time improve their ergonomics on the bike. The image below shows you the difference between the non-adjustable footpeg hardware and the new adjustable footpeg hardware (with 20mm offset).
Adjustable footpeg adaptor and standard is not the same part number.



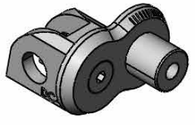
Standard footpeg



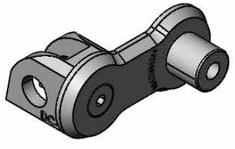
Adjustable footpeg

Two types of shifters are offered depending on the degree of offset desired. The 20mm displacer has been designed for rider and passenger. On the other hand, the 40mm displacer has been developed only for the passenger and especially for sports motorcycles.

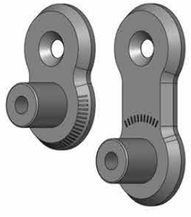
Standard footpeg adaptor



Adjustable footpeg adaptor with 20mm. offset



Adjustable footpeg adaptor with 40mm. offset



The displacer allows for both a more relaxed and sporty ride. For example, riders with small feet can move the footrest further forward for greater control. And those who prefer a sportier ride can choose to set back the footpegs. All this is possible due to the adjustment options that the displacer allows, the footrest pivots 360º in 15º intervals.

ENGINE PROTECTIVE COVERS

HI-TECH PARTS | TECHNICAL SECTION

REF. 20134N

MATERIAL

Manufactured in 4mm thick polypropylene for strength, durability and good appearance. The covers are simply bolt-on on the oem engine case.

Compact for a maxium distance to the ground, matt finished, and protecting one of the most vulnerable areas of the machine.

SINGLE-SIDED REAR FENDER

HI-TECH PARTS | TECHNICAL SECTION

NEW!

FUNCTIONAL
Protects the motorcycle and the rider from water, mud and small rocks.

MATERIAL
Manufactured from machined aluminium with chamfered edge.

ADJUSTABLE
Dimmable and adjustable.

WEIGHT
Light and resistant.
Manufactured in aluminium.

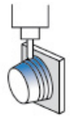
AXLE SLIDERS PHB19

HI-TECH PARTS | TECHNICAL SECTION

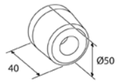
WEIGHT
265 grams.

DESIGN
Racing look for your motorcycle.

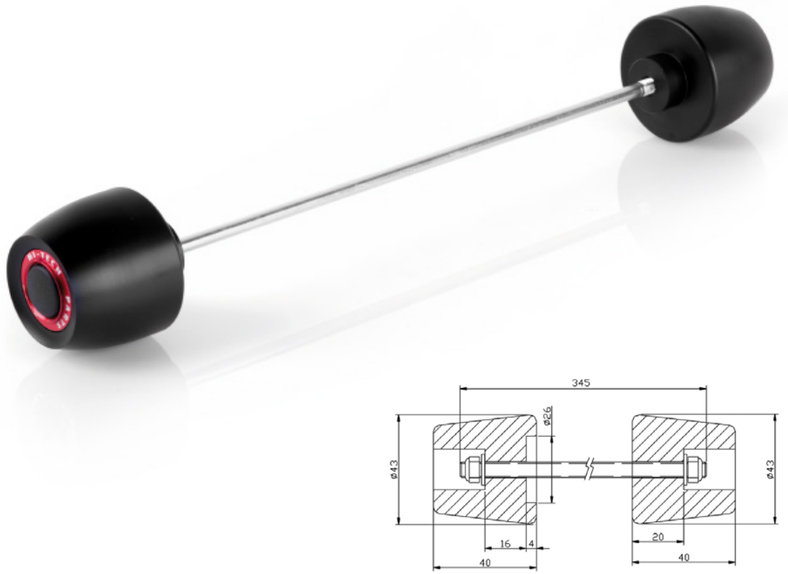
COMPLETE PROTECTION
Fork and swing arm protection.



MATERIAL
Manufactured throught a nylon block.



DIMENSIONS



MODEL	REF.	N
UNIVERSAL	20097	(*)

The set of anodized aluminium rings must be ordered separately from the sliders, depending on the color of the bike.

NOTES

www.puig.tv

SALES CONDITIONS

- 1% extra discount sending the order through our extranet on www.puig.tv.

RETURN PROCEDURES

- No return will be accepted after 3 months from shipping note.
- The return must be accepted from Motoplastic S.A., after verification of the material by an agent in the area or, otherwise, through an email sent to pedidos@puig.tv requesting the return along with detailed images.
- If the return is not Motoplastic´s fault, 20% devaluation will be applied and material will need to be sent paid for.
- If the return is because of the transport, the customer will need to send us the transporter's shipping note where should be noted, at the time of the reception of the cartons, the disagreement of the condition of the material. Additionally, images of the cartons in bad condition will need to be sent to us.

BRAND AND IMAGES

PUIG® is a registered brand.
